

# ITALIAN AGENCY FOR DEVELOPMENT COOPERATION IN SUDAN – 2018 - MIGRATION

## KEY FACTS

Sudan has a long-standing tradition of hosting refugees, and continues to be a source, transit and destination country for irregular mixed movements, including asylum-seekers and refugees using the East African North-bound migratory route through Libya to Europe.

It continues to host refugees from Eritrea, Syria, Yemen, Chad and other countries. Importantly, Sudan is one of the major hosting countries for refugees fleeing the deadly conflict in South Sudan.

The eastern part of the country is expected to remain the entry point for primarily Eritrean migrants and refugees who mostly continue to transit through Khartoum before making their onwards journey to Europe.
