

From: Procurement Sudan Tender Pub. Ref. 10017-CS-01-2019_CIG8007740418

Ref. Enquiry 745/2019 MJ/n 29.10.2019

1. Please send drawings (layout and sections) of the required structure.

1 R- Please find here attached the tentative drawings for the cooling storage unit. Please note that final drawing might present differences according to specific features and technical needs.

2. Ceiling: please send requirements.

2 R- The Ceiling specifications are chosen by the tenderer, according with the technical requirements specified for the cooling storage unit and the background information provided.

3. There is no mention of the flooring, so should it be absent? Should walls just stand on the ground or penetrate it?

3 R-The basement is not part of this tender, it will be realized by a partner company and it will comprise an insulating floor surface on which the storage unit will be assembled.

4. Lighting: please send requirements.

4 R- The tenderer will provide the selected option for Lighting according to the technical and financial offer presented for the storage unit.

5. Monobloc type refrigeration units: please show their desired positioning in the drawing.

5 R- The tenderer can present different options according to the draw here attached.

6. Please comment on profiles fixing.

6 R- The tenderer will provide his own option for profiles fixing according to the technical and financial offer presented and in compliance with the background information.
