Those exclusion situations apply to all members of a joint venture/consortium, all subcontractors and all suppliers to tenderers, as well as to all entities upon whose capacity the tenderer relies for the selection criteria.

14. Selection criteria

In order to be eligible for the award of the contract, tenderers must provide evidence that they meet the selection criteria. If a tender is submitted by a consortium, unless specified, the selection criteria will be applied to the consortium as a whole.

If the tenderer relies on other entities, it must prove to the contracting authority that it will have at its disposal the resources necessary to perform the contract by producing a commitment on the part of those entities to place resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the tender should include a separate document providing data on this third entity for the relevant selection criterion. Proof of capacity must be provided at the request of the contracting authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the works for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract. Financial data to be provided by the tenderer in relation to the selection criteria must be expressed in EURO
