4 - Material

#MH n°... – Name and number
CL=... – Cover Level of manhc
IBL=... – Inside Base Level of n
ø... ▭ / ... – Dimensions in p
IL.I=... – Invert Level of Inlet pip
IL.O=... – Invert Level of Outlet

MATERIALS

All gravity drain pipes will be carried out by PVC-U, in accordance with the standard NP EN 1329.
All compression pipes will be carried out by High density polyethylene pipes (HDPE) PN10 PE80.
Manhole covers will be made of cast iron. Inside the building covers shall be recessed, to receive the same finishing as the surrounding floor.
Where trenches depth is such that the drains cover is less than 1.00m and subjected to trafic load, they shall be reinforced according with the proper detail.
