CABLES LEGEND

SYMBOL	DESCRIPTION / MOUNTING METHOD
	Cable installed in conduit in the ground
	Cable installed on perforated tray run horizontally

GENERAL NOTES

- The solution might require adaptation to local conditions ;
- The implementation of the different components should be aligned by the contractor in the implementation phase, with the elements of the architectural project;
- The dimensions are given as an indication, the contractor must confirm them in place and perform precise measurements before the work is done;
- All dimensions must be confirmed with the architectural project;
- All work must be done with particular care in order not to damage the pre-existing installation, to ensure the safety of the building and the workers;
- Any discrepancies must be reported officially to the team planner;
- This project must be read together with projects from other specialties.
